YOUNG PEOPLE'S RALLY AT COLEMAN

On Monday evening next, December 6th, a rally of the Young People of the United churches of the Pass and Pincher Creek will meet at Coleman United church at 8 o'clock. An interesting programme has been arranged and the guest speaker will be Rev. R. W. Hibbert, M.A., director of Young People's work for the province of Alberta. Arrangements have been made for transportation, cars leaving Blairstown United church not later than 7:30. All our young people, 18 years of age and over are invited. If you are planning to attend, please phone or leave your name with Albert Chappell.

TOMBOLA PRIZE WINNERS

Following is a list of winners in the tombola draw staged in connection with the bazaar held in the Columbus hall last week under auspices of the C.W.L.:

Ten dollar gold piece, donated by Mrs. G. A. Vissac, won by Mrs. E. McDonald, Blairstown.

Silver cake basket, donated by Mrs. J. A. Brusset, won by Miss G. Frey, Blairstown.

Linen cut-work lunch set, donated by Mrs. T. J. Murphy, won by Billy Aschacker, Blairstown.

Table lamp, donated by S. Trono, won by J. J. Wakeland, Lethbridge.

Fancy cushion, donated by Mrs. J. E. Oliver, won by Mrs. P. R. Thodeau, Lethbridge.

Large fern, donated by Mrs. E. Tinunzie, won by R. Racette, Blairstown.

Rayon Bedspread, donated by Blairstown Junior C. W. L., won by A. Stevinaud, Blairstown.

Wool blanket, donated by Blairstown Senior C. W. L., won by Mrs. Rzadzka, Frank, Alta.

Turkey, donated by H. Zak, won by C. J. Tompkins, Blairstown.

98-lb sack of flour, donated by M. Sartori, won by Mrs. J. Schaeffer, Blairstown.

Box of apples, donated by J. Kubik, won by Rev. J. P. Harrington, St. Pat, Ont.

Linen tablecloth, donated by Mrs. L. M. Morgan, won by Mrs. A. Pozzi, Blairstown.

Comforter, donated by Mrs. Gibbons, won by Mrs. C. Vejprava, Frank, Alta.

The officers of the C.W.L. appreciate the patronage given the bazaar, the untiring efforts of the different members who worked hard to make it a success, as well as the generosity of those who donated prizes.

“MOVIE CRAZY” LAUGHS RUN ALL-TIME LENGTH

The longest series of big laughs ever assembled in one motion picture sequence, are credited to Harold Lloyd's latest production, “Movie Crazy,” with Constance Cummings, the first the bespectacled comedian has released in two years, which opens tonight at the Orpheum theatre. Eight minutes of consecutive laugh-producing incidents have been rolled in one “faction” of “Movie Crazy,” giving Lloyd, as well as every other comedian, a record to shoot at in the future.

In “Movie Crazy,” one gag rolls into another, and to the satisfied amazement of Lloyd, neither dialogue nor music is heard in the entire ball room situation, which runs virtually the length of an entire reel.

There are three, among the numerous laugh factions in “Movie Crazy,” which stand out in relief, and it is going to be difficult to find any two persons who will agree as to which is the funniest.

There is a test scene, which for novelty and laughs, will be difficult to surpass; the magician's coat episode and the fight which climaxes the story, any one of which would have been sufficient to carry a feature length comedy to successful results.

FORMER PASS RESIDENT DIES AT CARMANGAY

Carmangay, Nov. 28.—A mining engineer by profession, but for many years a rancher in the Little Bow country near Travers, Henry Welch, aged 71, was found dead on Friday morning in the bathroom of the Orange hotel here. Discovery of the dead man was made by J. B. Ross, the hotel manager, who at once notified the police. Dr. Lovering, coroner, of Lethbridge, was called, but decided that death was due to heart failure and that no inquest was necessary.

The late Henry Welch was at one time a mining engineer in the Crows' Nest Pass, prior to which he was in Montana. Coming to Carmangay about 1906, he became interested with George Talbot in ranching in the Little Bow area. During the last few years he has been living in retirement at the Orange hotel.

On Saturday the remains were forwarded to his sister, Mrs. Katherine W. Mason, of South Haven, Mich. Another sister, Mrs. J. Long, of Chicago, also survives.

FLATHEAD ROAD IS VITAL NEED

Fernie, B.C., Nov. 23.—At the Fernie Board of Trade meeting on Tuesday evening the proposed Flathead road came up for discussion. Correspondence had been received from Vancouver interests, stating that considerable work was intended to be done next spring at the oil prospects on Sage Creek in the southern end of the Canadian Flathead valley. These people asked if machinery and supplies could be taken economically from Fernie through Canada all the way. They pointed out that the United States route from Columbia Falls in Montana north across the Canadian boundary necessitated heavy charges for duty and exchange on American purchased goods.

It was stated at the board meeting that the only Canadian route by Corbin was impassable, over a considerable distance for any method of transport except pack horses. Autos could be used for 18 miles south of Corbin to what is called the “Townsite,” situated on the Flathead river. The old road from this point fords the Flathead River several times and has long stretches of boggy roadbed now impassable as well as having fallen into bad repair. A new location for the road has been made for half the distance between the “Townsite” and the oil prospects. This location was not completed for lack of appropriation for this purpose. The new location avoids all river crossings and is on firm ground.

Tom Uphill, M.L.A., stated that the government in the past had received revenues totalling over two million dollars from the licenses of natural resources in the Flathead Valley.

A resolution from the board is to be sent to the government asking that road facilities be made for getting in Canadian supplies through Canadian territory to the lower Flathead Valley.—Ex.

BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

“Beauty and the Jacobin,” by Tarkington; “St. Cuthberts,” by R. E. Knowles; “Anne Then Came Spring,” by John Hargraves; “The Man in Lonely Land,” by Kate L. Bosher; “Seven Days Whipping,” by John Biggs; “The Beadle,” by Pauline Smith.

The library hours are Tuesdays and Thursdays from 7 to 9 p.m., and Saturdays from 7 to 10 p.m. The fee: are \$1.00 per year for residents and \$2.00 per year for non-residents.

Plan to be at the Elks' Annual New Year frolic—where everybody enjoys themselves. Columbus hall, January the 2nd.

Pains Around Her Heart Tired Out After Doing Housework

Mrs. Henry Ranch, Morin Lake, Alta., writes: "Last fall I had bad pains around my heart, and each morning, after doing a little housework, I seemed to get dizzy and feel all tired out. Since that time, I have had no relief from the dizzy spells and pains around the heart."

British-U. S. War Debts.

At the time this article is written, President Roosevelt and President-elect Roosevelt are in conference giving consideration to applications made by the British, French, and other Governments which are indebted to the United States for loans moratorium, covering repayments granted last year, and generally for a revision of the terms of settlement of such debts.

Inasmuch as these enormous international war debts are admittedly one cause of the existing financial and economic depression affecting all nations, whether they are directly concerned as debtors or creditors or not, it is well that the general position in regard to these debts should be understood in its broad outlines.

The war debts of the nations of Europe to the United States total approximately \$22,143,539,000, of which amount Great Britain owed \$11,105,963,000, and has paid almost \$2,000,000,000. France owed \$6,847,674,000 and has paid \$486,075,891; Italy owed \$2,407,677,000 and has paid \$97,584,422, with the smaller nations owing varying amounts. Repayment of these huge amounts were to be made within a period of approximately 60 years.

On the other hand, Germany was obligated to pay these allied European nations the sum of \$26,377,000,000 during a like period of time. In other words, as Germany paid her debts to the Allies, they in turn could pay the United States. But Germany cannot pay; the whole world now recognizes that fact. So at the Lausanne Conference last June, Great Britain and the other nations agreed to let Germany off for \$714,000,000 instead of \$26,000,000, provided the United States would radically reduce or cancel the war debts due to that country. This the United States has thus far refused to do.

The Allies carried on the war against Germany for three years before the United States entered the conflict. Some of them had completely exhausted their credit in those three years and would have collapsed, the result of which might easily have been a German victory. Great Britain came to their rescue. But while Great Britain could have continued to finance all her own stupendous war expenditures, she could not do so and at the same time finance her allies. So Great Britain borrowed from the United States and in turn, financed these other allied countries. They cannot repay Great Britain, nevertheless Great Britain is obligated to repay the United States, and as the above figures indicate, has been doing so. As a result Great Britain is out of gold; has got off the gold standard; and now, because of failure of Germany to pay her, or pay other European nations which are so heavily indebted to Great Britain, it is no longer possible for Britain to continue paying out to the United States when others are not, because they cannot pay her.

Furthermore, in the huge borrowings by Britain and other countries from the United States, the latter country did not actually lend them gold. What the United States Government did was to advance them credit, with to buy food supplies, munitions, raw materials and manufactures of all kinds in the United States. In other words, the money was practically all spent in the United States in enormously high war prices for farm products in war-time wages to workers, in war-time profits to manufacturers and people generally. The people of the United States prospered while Europe was impoverished.

With the ending of the war, and the necessity of paying off these huge credits, the United States Government demanded payment in gold. The United States, we repeat, did not lend gold but sold supplies of all kinds on credit; then they refused to take supplies back in repayment but demanded gold. In order to prevent repayment in supplies they raised their tariff to prohibitive heights and shut out foreign goods. In so doing they killed off the export trade of the debtor nations, thus making it still harder, in fact, impossible, for them to pay.

Great Britain has never defaulted in payment of its obligations to any one at any time. Repudiation of obligations has never been countenanced by Great Britain, although it has been the victim of such practices by other countries, including several of the States of the United States. Britain has no desire to default now, and years ago offered to write off the debts owing to her if her own debts, created by borrowings to assist these other nations, were similarly written off. The world's financial and economic troubles today are not due to Great Britain, but had her advice and example been followed after 1918 there would be no trouble.

If the United States still remains adamant, if it refuses to cancel or very substantially reduce the amounts owing to that Government, and continues to insist on payment in gold, then, in our humble opinion, the stand to be taken by the British Government should be this: Payment in gold being impossible, and in view of the fact that the debt was created through the supply of goods produced or manufactured in the United States, thus creating employment and wealth in the United States, Great Britain should now offer to repay the United States by exactly the same method—that is, by supplying the United States with goods produced or manufactured in Great Britain, or through services, such as shipping which Britain can supply, thus providing employment for Britain's unemployed, and producing wealth for Britain's over-taxed people and institutions.

Until the United States is prepared to accept such British credits in exchange for the credits extended to Britain, that is, to accept British goods and services in payment for the United States goods and services supplied, Great Britain will not repudiate anything, would refuse to pay, and will not further settle until that country is prepared to accept the same treatment from Britain that, in the heat of the world's extremity, the United States accorded to Britain. Could anything be fairer?

The McIntosh is Popular

Popularity of the "McIntosh Red" apples grown in Canada is evident from the fact that the whole of this year's crop grown in Western Canada has already been marketed. More than 365,000 boxes of these apples have been shipped to the domestic and export markets—Department of Agriculture.

Minister—I made seven persons happy today.

Housekeeper—Really, sir?

"Yes. I married three couples."

"That only makes six persons."

"Do you think I did it for nothing?"

Eggs vary in weight from 18 to 32 ounces to the dozen.

Canada At Geneva Conference

Delegates Gave Full Support To Every Constructive Proposal

Canada gave whole-hearted support to any and every constructive proposal for the limitation and reduction of armaments which was laid before the Geneva "disarmament" conference. Sir George Perley, who headed the Canadian delegation, informed the House of Commons, Sir George read to the House a letter which he wrote to Prime Minister R. B. Bennett, summarizing briefly the proceedings before the Geneva conference from its opening in February until the adjournment of the first session in July.

"The work of the first session cannot be considered an unqualified success, and yet it is not fair to say that nothing was accomplished," Sir George informed the Prime Minister. The ordinary complexities of disarmament, he said, were complicated still further by several special factors which added to the difficulties of the delegates in reaching agreement. The situation in the Far East, and the "exigencies of politics in certain European countries" were among factors. "As a result not as much was accomplished as was hoped for," Sir George wrote.

Sir George was accompanied to the conference by Hon. Maurice Dupre, solicitor-general, and Miss Winifred Kydd, president of the National Council of Women. To both of his colleagues he paid tribute on the floor of the House. "There were only two ladies who were full delegates to the disarmament conference," he wrote the Prime Minister, "and we are proud of the fact that one of them was a Canadian."

Subjects of great importance will be considered at the next session of the conference, Sir George informed the Prime Minister in his letter. "There is reason to believe that if the views of Germany and France can be reconciled, decisions for far-reaching importance may be taken at the forthcoming conference," Sir George wrote.

A Great Natural Port

West Should Use Every Legitimate Means To Advertise Churchill

The port of Churchill needs today accurate publicity well distributed in Great Britain, New York and eastern Canada, E. Cora Hind, commercial and agricultural editor of the Winnipeg Free Press, said in an address before the Winnipeg real estate board and the On-To-The-Bay Association.

Miss Hind urged her audience to work to induce western boards of trade to send a strong delegation to meet the first boats coming in next season and make a real occasion of it. She also urged preparation and distribution in Britain and eastern Canada of statements as to the advantages of the bay route, avoiding any exaggeration.

"Every effort should be made," she said, "to induce western merchants to order goods brought in by that route. All ships coming in next season should have some inward cargo. Churchill is a great natural port, the Hudson Strait is feasible and can easily be made more so and for a longer season, but the work must be done from the west; the east will hinder, not help."

Well Repaid For Kindness

King George and Queen Mary Enjoyed Meeting Helen Keller

Their kindly majesties of England, the King and Queen, never performed a more gracious act than, when they received informally Helen Keller, the marvelous deaf and dumb and blind American woman, who has surmounted her terrible handicaps in such a wonderful manner. And their kindness was well repaid, for after conversing with Miss Keller, they marvelled at her attainments just as have all of us who never had the privilege of meeting her—Boston Post.

Big Angler, Small Fish

Mrs. Dale, of Southend-on-Sea who weighs over 200 pounds, and was the heaviest competitor of the 823 taking part in the Southend fishing festival, had the smallest prize-winning catch, which weighed 3 ounces.

The 500-year-old elm at Chaffont St. Giles, England, beneath which Milton sat frequently, was felled recently.

Brazil is requiring all gold miners to sell their product to the government.

Automobiles produced in the world last year totalled 3,042,069.

A gun, if fired under water, will generally explode.

HAPPY TO BE 136 Lbs

Lost 38 lbs.—More To Follow

Most women would be alarmed if they weighed 136 lbs. like this one. She used to weigh 174 lbs. and she has found a way to take off that disfiguring overweight.

She writes: "Six months ago, when my weight was 174 lbs., I started to take Kruschen, and have gradually got down to 136 lbs.—and am still going down. I have not altered my diet at all, and I only take a half a glass of milk at night, and a glass of hot water every morning.

I find Kruschen very good. I believe which I used to suffer a great deal. But I am now comfortable left to myself. In fact, I feel stronger now than ever before.

One of the things I have to say to you that Kruschen will make you feel younger—spry—more energetic—you'll enjoy life—every minute of it."

—(Mrs. M. K.

PROPOSAL FOR WORLD WHEAT POOL ADVANCED

Calgary, Alberta—Virtual establishment of a world wheat pool, on a voluntary basis by the four leading wheat exporting countries, was urged before the Alberta wheat pool annual meeting here by C. W. Peterson, publisher of the Farm and Ranch Review and leading farm expert of western Canada.

Mr. Peterson's address was given at request of delegates during discussion of general wheat production and exporting problems.

Mr. Peterson's proposal, mentioning specifically the wheat exporting countries of Canada, United States, Australia and Argentina, briefly were:

1. To organize the four chief wheat exporting countries into a pool to control, within each such country, the domestic and export sale of wheat and flour.

2. To induce importing countries to agree to a fixed, uniform price of a specified grade of wheat at Liverpool.

3. By creating a state monopoly of the wheat and flour business, or by any other feasible method, to facilitate the proper enforcement of such a price within all countries.

Elaborating his proposals after addressing the closed meeting of the pool delegates, Mr. Peterson reviewed history of agriculture for the past 300 years, leading up to present world conditions. He proposed the licensing of farmers in Canada, United States, Australia and Argentina to guarantee against over-production with a form of international control.

"Thinking people," he said, "can easily comprehend the sequence of events leading up to present conditions." The first step, he said, was universal agricultural over-expansion arising from inflated war prices. The second was culmination in unprecedented agrarian price demoralization, bringing the temporary subjugation of farmers in all exporting and most importing countries to a sump standard of living. The finale was present超

Mr. Peterson's plan called for establishment of a "joint international wheat board" which would become responsible for marketing of all the wheat and flour produced in the four countries.

Each of the four countries would, by the joint international body, be allotted an acreage quota annually, based on current world requirements. Normally, he said, this would vary somewhat each year in sympathy with carryovers, increases in world population and planting intentions in other countries. Special quota allowances might have to be accorded Australia and Canada in view of their comparatively undeveloped state to provide for new settlement. The proceeds of this acreage, based on the season's yield in each country, would be accepted for export sale. No more than the quota would be taken.

Church Union

Australian Making Study of Church Union System in Canada

Ottawa, Ont.—"I don't think there is any chance of stopping union," declared Lieut.-Col. the Rev. A. T. Holden, D.D., president-general of the General Conference of the Australian Methodist Church, and chaplain-general of the Australian auxiliary forces, who was a guest in Ottawa. Col. Holden is making a trip across Canada for the sole purpose of studying church union as it exists in this country, so that he can put forth proposals in his own country for the union of churches.

Going to New Diocese

Vancouver, B.C.—Rev. A. H. Sovereign, bishop of the Yukon, who is relinquishing his work here to go north to take charge of the diocese of Athabasca, will leave Dawson in March, according to word received here. Bishop Sovereign will arrive in Vancouver early in April and after a short stay here, will proceed to Prince Albert to commence his new work.

Would Improve Bacon Hogs

Toronto, Ont.—Advocating a higher quality of bacon hog suitable to the demand of the Great Britain market, Hon. Robert Weir, Dominion Minister of Agriculture, addressed several hundred farmers and exhibitors at the Royal Winter Fair luncheon recently.

W. N. U. 1970

Many Questions On Beauharnois Project

Matter Is Again On Ottawa House Order Paper

Ottawa, Ont.—The Beauharnois power project again figures in questions placed on the order paper of the House of Commons. E. J. Garland, United Farmer member for Bow River, has a dozen queries on the order paper with a view to obtaining further information in respect to the financing of the undertaking.

Mr. Garland first asks for the tabling of copies of any arrangements which have been entered into by the government in respect to the Beauharnois project. He wishes to know the total amount of money advanced by the government to date in connection with the construction and completion of the enterprise.

"What security has the government been given for the money advanced?" he asks.

The member for Bow River asks if the government has obtained any legal opinion regarding the legal right of the Beauharnois Heat and Power Company to transmit electrical energy beyond the limits and boundaries of the province of Quebec.

"Did the minister of finance or the prime minister approve of loans estimated at \$6,500,000, made by the Royal Bank of Canada, the Bank of Montreal, and the Canadian Bank of Commerce to this enterprise?" he asks. "Are such loans permissible under the Canadian Bank Act?"

For Better Understanding

Makes Plea For Closer Union Between Britain and U.S.

London, Eng.—Speaking at a Pilgrim's Society luncheon in honor of Robert Fraser, the new United States secretary for War, made a plea for closer union between Great Britain and the United States for the economic salvation of the world.

"Never has there been a time when it was more important that our two peoples should understand one another," he said. "We stood together in arms to protect civilization from violent destruction. I believe that today we, the two great creditor nations of the world, must stand together to protect the world from economic disaster. I believe that the hope of civilization lies in fuller understanding between Great Britain and the United States."

Attack Duff Report

Labor Makes Attack On Its Recommendations

Ottawa, Ont.—Thousands of railwaymen throughout Canada will be thrown into the ranks of the unemployed if the Duff commission's report is adopted, the House of Commons was told when Labor made its initial attack on its recommendations.

Humphrey Mitchell, Labor, Hamilton East, estimated 20,000 railwaymen would lose jobs. Hon. Peter Hearn, who returned to overalls and a locomotive cab when he left the portfolio of Labor in the King cabinet, placed the number at "many thousands and thousands."

Branch railway lines would be scrapped, noted the former minister. Services would be dropped and centralized. The Canadian National and Canadian Pacific Railways would be drawn into closer co-operation. Competition would disappear.

Alberta Deficit

Decreased Revenues Show In Provincial Treasurer's Report

Edmonton, Alberta.—Deficit of \$5,153,050 in Alberta provincial finances for the fiscal year ended March 31, 1933, is shown in public accounts released by Hon. R. O. Reid, provincial treasurer. This compares with a deficit of \$2,306,531 for the previous fiscal year, 1930-31.

Revenue for the year which had been estimated at \$18,441,457 actually yielded \$13,492,436, a shrinkage of nearly five millions, expenditures were estimated at \$18,826,798, but were cut to \$18,645,481.

Sees Better Times

Toronto, Ont.—President Frank A. Roth told the annual meeting of the shareholders of the Imperial Bank of Canada here today there is a greater feeling of optimism throughout the country than there has been for two years, that opportunities are offered for developing business due to the imperial economic conference, and that further stabilization may be expected from the coming world economic conference.

Oil From Oklahoma

Trainload Of Crude Oil Leaves Seminole For Regina

Seminole, Okla.—A trainload of 40 cars of crude oil will leave here for the Imperial Oil Company, Regina, Sask.

The train will provide 120 working days for railway employees in Canada and the United States. The railroad men call it the "King George Special." It is the first trainload of Seminole crude oil to be shipped to Canada in months. There used to be three a week.

MORE DIVERSITY OF PRODUCTION ON THE FARM

Toronto, Ont.—Radical changes are required in western Canadian agricultural practices before the prairie provinces' economic picture is again bright, in the opinion of a prominent Toronto banking official quoted by the "Mail and Empire."

Just returned from a month's intimate study of conditions and prospects in the west, the banker advised turning the bulk of Manitoba's wheat lands into grass for cattle. That, he suggested, would permit Saskatchewan areas suitable for wheat along to retain this as a major crop without congesting the market.

Alberta, he stated, already was well on the way toward a more balanced production. However, greater interprovincial co-operation was required before the problem finally could be solved.

There must, in the banker's opinion, be drastic curtailment of wheat acreage in western Canada, and he suggested the best method of attaining it would be through interprovincial co-operative measures tending toward a planned and coordinated diversity of production, allocating to each area the new crops and types of livestock it was best fitted to produce.

Western Canada could not get along with general comfort throughout all its sections so long as wheat prices at Fort William were less than 65 cents a bushel. Readjustments already made had placed the average farmer in the position of being as well off with wheat at 60 to 65 cents as he was three years ago when it was selling at \$1.25 a bushel.

Some communities and individuals had so organized their production they were doing well with 50-cent wheat, the banker stated. Others in such areas as southeastern Saskatchewan had not yet exhausted their cash surpluses from former years. Thus, there was by no means a uniform condition throughout the west. Bright spots were sufficient in number and variety to mitigate the gloom cast by others.

ITALY PASSES TENTH MILESTONE UNDER FASCISM

Since that October day ten years ago, when the black-clad legion, led by an almost unknown agitation Benito Mussolini, marched into the Eternal City and started Italy on its comeback to greatness, many changes have taken place in the land of the Caesars and Popes. The most remarkable of these changes, to the locker-on, has been the climb to power of Mussolini. His law is law in every corner of the country. He is hated by many, feared by many, adored by many—but obeyed by all. Fascists claim that Il Duce has built up the economic structure of Italy to a position it has not enjoyed for decades.

NEW AMBASSADOR

Herr Von Hoesch, New German Ambassador to Great Britain, is shown above as he arrived in the British Capital.

Relief On Mortgage Payments Is Sought

One Per Cent, Interest Cut Asked By Prairie Provinces

Ottawa, Ont.—Efforts to free prairie farmers for one year from mortgage interest and to persuade mortgage companies to reduce interest rates by one per cent, were put forward last week by western provincial treasurers in an interview with officials of these companies.

The interview, it is understood, took place at Toronto, and the reply given the treasurers is not known here.

It is understood, however, that the companies pointed out that few if any foreclosures are being sought for areas of interest, and that the companies are dealing generously with farmer debtors on the prairies.

New Stamp Issue

Bears Profile Of King Engraved In Medallion Style

Ottawa, Ont.—A new stamp issue, in denominations of one, two, three, four and six cents was placed on sale by the post office department on December 1.

The new issue bears the profile of the King, engraved in medallion style and is similar in design to the 3-cent stamp issued to commemorate the Imperial Economic Conference.

At the same time a new 13-cent stamp will be issued replacing the current 12-cent stamp that bears the view of the Quebec capital. The design of the new stamp will be the same as that of the 12-cents issue but its colour will be violet.

No Jobless In Jerusalem

Not One Man Unemployed Statement Of Jewish Leaders

New York—Three Jewish leaders from Palestine arrived on the "Berlin" on their way to a convention of the American Misbach organization in Buffalo, boasted that their city is the one place in the world that has not one unemployed man.

One of them, Aran Bis-Nun, said the Jewish population in Jerusalem has grown from 50,000 in 1917 to 220,000 today.

U.S. IS AGAINST MOVE FOR DEBT CANCELLATION

Progressive Leader Will Introduce Amendment When House Opens

Toronto, Ont.—A demand for a provincial election next summer will be made immediately after the opening of the Ontario legislature in February by H. C. Nixon, Progressive Leader, who was in Toronto.

He declared he would introduce an amendment to the moving and seconding of the adoption of the Speech from the Throne demanding the business of the House be concluded with reasonable speed and an election called for June next.

Washington—Climaxing a rapidly moving picture of war debt discussion, President Herbert Hoover launched—with the knowledge of President-elect Franklin D. Roosevelt—a request that foreign debtors meet the President to pay him on their war debts to the United States.

Simultaneously and in the face of congressional opposition, he proposed legislative creation of an agency to review international financial pledges in connection with world economic and disarmament problems.

In view of determined objections made on Capitol Hill, especially by Democratic powers in the House, there seems little chance for such a United States commission.

Only a few minutes before Mr. Roosevelt left Washington and shortly after an extraordinary concourse of congressional leaders at the White House, Mr. Hoover issued a lengthy formal statement declaring flatly against debt cancellation but suggesting "other forms of tangible compensation than cash."

Immediately there followed a chorus of mixed approbation and opposition. One senator and representative after another declared against a commission to review the debts. The same men, however, expressed approval of Mr. Hoover's stand against further moratorium or cancellation.

Some congressional leaders told President Hoover at the White House conference that he already had power to negotiate or set up a commission and had no proposed to negotiate with Great Britain, France and other European powers. The same view was echoed later by other prominent members of congress who did not attend the meeting, but in administration quarters it was held the executive had no such power.

Speaker John Nance Garner, the vice-president-elect, who led the Democratic contingent into the cabinet room conference at the White House, and later into parley with Mr. Roosevelt, reiterated in public a bill expressed by several at both meetings.

"Let them default," he exclaimed in answer to questions. "Who said they would default? They won't."

MASS KILLING OF CHINESE BY JAP SOLDIERS

Shanghai, China—A Chinese foreign office communiqué published here charged that 2,700 Chinese peasants were massacred recently in northern Manchuria, by Japanese troops.

The mass killing was done by machine guns, the communiqué said.

Inhabitants of the villages of Ping-San, Chien-Chiape and Liukou, 10 to 16 miles northeast of Fushan, were assembled in a ditch west of Ping-San while Japanese soldiers searched the villages for Chinese rebels, the communiqué said. It was explained that the villages were suspected of co-operating with and harboring the rebels.

According to the Chinese foreign office, the Japanese promised a reward if the villagers were found to be innocent, and then placed more than 10 machine guns 70 yards from the assemblage, ordering all the captives to kneel with their backs to the machine guns, the communiqué said.

Some of the villagers realized the fate in store for them, the communiqué continued, and commenced to run, whereupon the machine guns opened fire on the stampeding mass of screaming men, women and children.

"Infants, children and others not killed by bullets were bayoneted," the statement said.

The Japanese, the foreign office declared, piled up the corpses, covered them with oil-soaked fuel and burned them.

Subsequently, according to the communiqué, the farms of the villagers were allotted to Japanese nationals.

Talked Over Light Beam

Scientists Make Longest Narrow-Casting Experiment On Record

Schenectady, N.Y.—A group of scientists at Schenectady talked with another group at Lake Desolation, 24 miles away, over a light beam projected across the lower Adirondack mountains.

It was the longest narrow-casting experiment record. During a part of the experiment John Bellamy Taylor, who developed the method of transmitting sound over light waves, was interviewed by Heywood Broun, newspaper columnist, who was at Schenectady, while Taylor was at Lake Desolation.

A searchlight mounted on a building at the General Electric Company's plant projected its beam upon a 30-inch mirror which was part of the receiving apparatus at Lake Desolation.

For National Defence

Conference Of Defence Association Has Been Established

Ottawa, Ont.—Organized for the purpose of considering problems of national defence, co-ordinating the activities of the present service associations in matters of common interest, and generally promoting the welfare of the defence forces of Canada, the conference of defence associations has just been established. The conference will meet annually in Ottawa. The chairman is Col. J. A. Gope, D.S.O., M.C., of Lethbridge, with Lieut.-Col. A. W. Beament, V.D., Ottawa, secretary.

Bill Given Third Reading
Ottawa, Ont.—Bill number six, an act to amend the customs act, was given third reading and sent to the Senate, in the House of Commons.

The amendment removed from the operation of section 43 the power of the minister to fix values for customs purposes on goods entitled to entry under British preference or any lower tariff.

New Sheep For West
Victoria, B.C.—Production of a new breed of sheep particularly adapted to conditions on western ranges which would provide the quality of wool desired in Canada as well as mutton and lamb for food was forecast at the fifth annual meeting of the associate committee on wool of the National Research Council.

Reducing Liquor Prices
Victoria, B.C.—Reductions in liquor prices on all save continental European brands, ranging from 10 cents to 60 cents a bottle, went into effect in British Columbia December 1. Hon. R. H. Poole, attorney-general, announced. Government approval has been given the new price list prepared by the liquor control board.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Dec. 1, 1933

The mayor of Stavely has resigned. For that position, no Reds need apply.

H. E. Dilman, of Antrim, Nova Scotia, picked a mayflower bloom the early part of November.

The Elks at Okotoks netted around \$200 from their carnival, which will be devoted to community work.

It used to be that when some girls were ashamed of the clothes they wore, they hadn't very much to be ashamed of.

Reductions in liquor prices, ranging from ten to sixty cents a bottle, will go into effect in British Columbia on December 1st.

Charlie O'Neill, formerly a star on the High River Fliers, is now playing hockey for the Detroit Olympics in a hunting accident.

Senator Andrew Hayden, of Ottawa, for many years a director of the Crows Nest Pass Coal Company, Fernie and Michel, died recently.

The by-election in Calgary, to fill the seat in the provincial house vacated by Dr. McGill, has been set for January the 18th.

Nels Nelson, world famous ski artist and long-distance jumper, had his left hand amputated at the wrist at Revelstoke on November the 25th, following the International League.

Because of the reduction in the price of brandy, rum and other stimulants required to make the Christmas cakes and puddings worth while, local stores have been selling an unusual amount of other ingredients for these Yuletide delicacies.

The marriage of Albert Leonard Watkins, government liquor vendor at Coleman, to Evelyn, daughter of Mr. and Mrs. James Ford, took place at Coleman on November the 10th, the ceremony being performed by the Rev. A. S. Partington.

The British Columbia department of mines has been stirred over the news that a private enterprise is considering shipping English coal to that province. It is claimed they can lay the coal at Vancouver at four to six dollars per ton. A Danish shipping concern is said to have the contract.

The death occurred at the Macleod hospital on November the 8th, of Mrs. E. Russell, who has been an inmate of that institution since October 29, 1924. Deceased was born in Campbellford, Ontario, in 1852, and before going to the Macleod hospital was a resident in Blairmore. She is survived by a son, residing at Kitchener, B.C. Remains were laid to rest at Macleod on the following day.

J. M. Taylor, of Hanna, was named president, and N. McClelland, Vermillion, vice-president of the Alberta Municipal Hospitals Association recently at Calgary. G. M. Cundl, of Mannville, was appointed secretary-treasurer. Dr. Bow, deputy minister of health, W. B. Milne, supervisor of hospitals, and Frank H. Holmes, of Beaver Mines, who is president of the Alberta Association of Municipal Districts, were speakers.

Barney Stitt, Conservative member for The Pas and a strong supporter of the Hudson's Bay grain route, said in the House of Commons the other day that the Bright Fan, the boat that hit the iceberg and was sunk, hunted around for two days to find the only iceberg within a thousand miles, and that he is in possession of evidence to prove that the sinking of the boat was deliberately designed to give the new grain route a black eye.

WELCOME ACCORDING
BY SILENT WORKERS

At a meeting of the local union of the M.W.U. of Canada on Sunday last, the following letter was read from Sam Patterson, one of the delegates to the Russian revolution anniversary at Moscow:

To Blairmore Local No. 1.

Dear Comrades:

I want to send you greetings from the workers of Moscow, and to tell you that we had a wonderful greeting from these workers here.

We saw the anniversary on the 7th and I must say it was wonderful. I will tell you all about it on my return. We were the guests of the Red Army yesterday and I must say it was an eye opener. I never expected to see anything in Russia like it as everyone here looks happy and enjoying life the workers had two days holiday and I never saw so many people on the streets as I saw here. All are well dressed and healthy.

We expect to visit some of the workers' homes today, and some of the big factories here in Moscow. We will be going away from here on the 12th.

Yours cordially,

SAM PATTERSON.

P.S.—The Russian workers know all about the strike we had and give us great credit for the fight we put up.

I am sending you a copy of the Moscow Daily News. Hope you will like it. If it gets through the mail—PATTERSON."

JUDGE SCORES SALARIES
PAID TO BANK CLERKS

Meagre salaries paid by banks to tellers, placed in positions of responsibility and required to maintain a social position, were commented upon by Mr. Justice Ives upon the opening of the criminal assizes at Calgary.

His lordship suspended sentence for two years on Bert Wright, former teller of the Dominion Bank at Calgary, who pleaded guilty to theft of \$65,927 from the bank. His bond for keeping the peace during the period of suspended sentence was set at \$500.

Counsel for Wright revealed that while holding the responsible position of teller in Edmonton, he was receiving a salary of only \$800 a year. He was moved to Calgary and his salary raised to \$1,300 a year. Later, "in the interests of economy," this salary had been reduced to \$1,200 a year. Wright told his lordship that he was required to pay the bank \$12 a year for bond, and \$2.75 monthly on a pension fund.

"I have had a great deal to do with banks," Mr. Justice Ives said. "I know that there are, in many cases, gross underpayments to employees and these are an invitation to become dishonest."

G. S. Blanchard, K.C., Medicine by the British and Foreign Bible Society, acting for Wright, said that yesterday in Edmonton Wright had been obliged to pay the bank \$25 because he inadvertently cashed a cheque with a forged endorsement. The bank held the teller liable for all over-payments made by mistake but, if by chance, too much money was taken in during the month, it was placed in a special account and if not claimed, retained by the bank. The teller did not benefit. Shortages required to be put up by tellers generally amounted to a considerable sum in the year.

Mr. Justice Ives advised Wright to repay the sum he had taken from the bank as soon as it became possible for him to do so.

C. E. Smith, as Crown prosecutor, did not object to request by Mr. Blanchard that suspended sentence be given.

Mr. and Mrs. M. H. Halton (nee Miss Jean Campbell) have been visiting this week at the home of Mr. Halton's parents, Mr. and Mrs. A. M. Campbell, and are leaving for the east today. They expect to sail next month for England, where Mr. Halton will take up his duties as London representative of the Toronto Daily Star.—*—Jacobs Note.*

BLAIRMORE UNITED CHURCH

Rev. Albert E. Lake, Minister

Serve the Church that the Church
May Serve You.Services Sunday, December 4th,
Missionary Sunday, the minister in
charge.11 a.m.—Senior Sunday School
and Young People's Class.

2 p.m.—Junior School.

7:30 p.m.—Public Worship. The
guest speaker will be the Rev. A. A.
Lytle, representing the Canadian
Bible Society.CANADA, A NATION WITH A
WORLD RESPONSIBILITYThe statute of Westminster, passed
by the Imperial Parliament, gives
legal sanction to Canada's Nation-
hood, and is indeed the Keystone of
the Arch whose foundations were

laid at the time of Confederation in 1867. The Imperial Relationship, as far as Canada and all the great Dominions are concerned, has been happily described in the words of the

present governor general of Canada, the Right Honorable the Earl of Bessborough, who is also Patron of the

Bible Society: "Our Empire is an in-
stitution held together by no arti-
ficial frontiers, by no subtle mechanism,

but by the simple tie of common
loyalty to one Crown and to many
millions of fellow-subjects."

g—Canada's Christian Heritage

Canada, of all lands, possesses a defi-
nitely Christian heritage. It has

been well said by the early French
settlement that "if France was indif-
ferent to immigration, she was not to
evangelization. It must be said to
her praise that no country ever treated
native races as generously as she did."

Some of her early missionaries
sealed their Christian testimony with
their blood.

It can also be asserted that, though
under somewhat different conditions,
due to the different form of the
Christian faith presented, the British
and the years passed by, were also
mindful of their obligation to Christ-
ianize the aboriginal inhabitants, in-
cluding the Eskimos in Labrador, and
to follow the pioneer with the min-
istrations of the Gospel. Missions to
the Indian people were undertaken by

various societies and translations of
the Scriptures into the language of
every Indian tribe in existence in

what is now called "Canada," last-
ing and the result of such missionary effort,
and the publication of such transla-
tions, was carried out in most cases

by the poet, the novelist, and the
artist, and above all for the Chris-
tian historian. Today the sense of
law and order, an ordered govern-
ment, and the Christian influences

which partly, at any rate, permeate
the institutions of the land, owe much
to the fact that the Bible has been in
the hands of the common people. Such

possessions create great tradition,
and succeeding generations have
handed on a great Christian heritage.

Canada's Christian Responsibility

It is a Bible command that pos-
session of spiritual privileges implies

responsibilities not only for their use
but for their propagation. Christian

people in Canada, the Premier Do-
minion of the British Empire, have

therefore a great responsibility to dis-
charge not only to their own land,
but to other lands, in passing on the

Christian Message which they
themselves have received.

In this the Written Scriptures have

a place. As far as Canada is con-
cerned, the Bible Society has assem-

ed responsibility for the spread of
the Written Scriptures in every need-
ed tongue. It has published some 20
translations for the aboriginal inhabi-
tants since 1804, and has sent out

translations for the 10 different lan-
guages to meet the needs of New Canadi-
ans. From 1807, when its first branch was formed in

Nova Scotia, to the present day, it has
followed the frontiers of the growing
Dominion so that now it touches

practically every part of the land
with its 15 auxiliaries, 10 Bible
houses, 15 district secretaries, some

40 men and women colporteurs, main-
tained through the liberality of a host
of supporters which form its 3,605

members. Even in a year of difficulty
like 1931, its issue amounted to \$54,
092 volumes in 65 languages.

Any gift, large or small, will help
Canada to be worthy of her Christian
heritage, to fulfill her Christian respon-
sibility, and to maintain her
Christian privilege in the spread of

the Written Scriptures to the ends of

the earth.

Sunday School—11 to 12 a.m.

Evening Service—6:45 p.m. Sub-
ject:

"A New and Living Way."

We welcome old and young.

Good singing and a bright service.

Maynard Davison, son of Mr. J. E.

Davison, Smith Avenue, has been
awarded the Fuller Scholarship at

Acadia University, where he is a
Freshie-Soph student in Arts. Mr.

Davison is a former student of the
Colchester County Academy, having
won his "A," is a graduate of the
Normal College and has three years

teaching experience, having taught at
South Maitland and Northport.—
Truro Weekly News. Mr. J. E.

Davison was one time resident of
Cowley, Alberta.

President Hoover has identified
himself in European minds with that
system of strangling tariffs which is
troubling life out of international
trading. A more liberal and human policy is ex-
pected from the new president.
Europe is also looking to him for
some strong lead in foreign affairs,
notably on the question of armaments
and Manchuria. He has already won
personal popularity here by his face
and his heroic fight against daunting
infirmitiy. In one respect, this election
has differed fundamentally from all European contests. Socialism and
Communism alike have failed to ex-
ploit national discontent. The vote
for Norman Thomas, the Socialist
candidate, indicates that for the moment
progressive opinion in America is
content to concentrate its hopes on a
change from a Republican to a
Democrat.—David Lloyd George.

Veritable stomach, growing on
tropical trees, may be plucked and
shipped to Canada in commercial
quantities. Lester Glas, trade com-
missioner for the Canadian West Indies, is

investigating the shopping and mark-
eting possibilities in conjunction with
the steamships. The "stomachs" in
question are papaws, which resemble
melons from the outside and peaches
internally. They contain papain, a
substance similar to the trypsin secreted
by the human pancreas into the

stomach. Papaws are even capable of
partly digesting meat by mere con-
tact over a period of a few hours.

English authorities declare that a
regime of papaw consumption will
cure many human ailments. The prob-
lem at present is to keep the tropical

fruit firm during the voyage north
and to bring it into Canada in large
enough quantities to permit of a
low selling price.

Twenty dollars a month to a lady
ticket seller is being paid by the Oko-
toks area.

Once again! Jack Smith died in
Newfoundland on November the 6th,
aged forty-two years.

From sixty to seventy men have
been employed in preparing the old
coke ovens of the International Coal
& Coke Co., Ltd., at Coleman, to till
the contract for the Consolidated
Mining & Smelting Co. during 1934.
The work has necessitated about 3000
feet of additional yard track being
laid by the C.P.R., and 1700 feet by
the company.

A sheik, says an exchange, is a man
(?) with slick hair, full pants
and empty pockets. He has more time
than a city judge. Each one thinks
he is the original "Woman's Home
Companion." He has an education
that is hard to find. He can be found
at all parties where everything is
free. He never takes a girl to a party,
but will fight to take her home.
While there he will treat her
very nice, but very seldom. The sup-
ply of sheiks exceeds the demand by
many millions. He is of no more
value to the public than a refrigerator
is to an Eskimo.

District News

From Our Own Correspondents

HILLCREST HAPPENINGS

Mr. W. T. Young, of the South Fork, was a visitor at the home of Mr. and Mrs. H. A. McVicar over the week end.

Miss E. Stenhouse was hostess to a bridge party for the Ladies' Bridge Club this week. The grand prize was won by Miss M. Grant.

G. E. Cruckshank was a visitor to Lethbridge last week.

Mr. and Mrs. A. Cassagrande and daughter Celestia, accompanied by Joe Fumagali, left for Edmonton on Monday evening.

Several parties are suffering from a mild attack of influenza.

J. W. Makin sustained a severe shoulder wrench at the mine during the week end.

Edgar Rhys arranged a very successful concert on Sunday last at Calgary, aid of the Unemployed Men's Association. Mr. Rhys himself contributed two very fine solos.

Mrs. Rhodes, of Bellevue, took charge of the service in the United Church here on Sunday evening.

A whist drive and dance was held in the K. of P. hall on Friday evening last. The honors were won by ladies' first and second, Mrs. Davies and Miss M. Graham; men's first and second, D. Grant and P. Salt. Supper was served and dancing continued until the early hours.

Mrs. H. McVicar entertained a few of her friends at her home on Thursday evening. Whist was played, the lucky winners being Mrs. W. Stevenson, first; Mrs. E. Roif, second; Mrs. Dudley, third.

Mrs. T. Morgan has returned from her trip to Wals.

The Scouts and Cubs have been busy this week selling tickets for the Elk's charity draw.

A very successful dance was held in the Catholic hall on Saturday evening last, with the Night Owls in attendance.

The Sunday School concert will be held in Cole's theatre on Wednesday night of next week.

The Bellevue unemployed association gave a concert on Sunday evening in Cole's theatre. Items were contributed by the following: The Nightingale Choir, Three Vagabonds; Bessie Carter, Ethel Pelopotsky, Carolyn Kuryluk, E. Bogusich, T. Lukas, B. Sterba, R. Price, E. Price, G. Koentges, B. Nastasi and M. Danish.

—

BELLEVUE HAPPENINGS

Mr. and Mrs. Dave Curry are rejoicing over the birth of a daughter, on Sunday last.

John Quintilis returned home on Sunday morning from St. Michael's hospital at Lethbridge.

In the triple-header basketball games played in the United church gymnasium on Thursday night, Bellevue girls defeated the Riverside 31 to 8. Pincher Creek and Riveirose Ramblers played to a ten-all tie. Michel Pirates defeated Bellevue 24 to 13. The three games were very fast and interesting to the fans.

Mrs. A. Hallworth was a Calgary visitor last week.

Mrs. Mike Favero was a visitor to Arrowwood last week.

Sigurd Haglund, of Waterton Lakes, was a Bellevue visitor for a few days last week.

The road gang at Passburg are still out on strike and refuse to go back until their demands are met. At meeting of the miners and unemployed, held in Cole's theatre, they decided to stay out and to place their demands in the hands of the police.

John Dan McDonald was taken suddenly ill while at work on Monday, and was rushed home. In the evening he was removed to the hospital and operated upon for appendicitis. His condition is still very serious.

Mrs. R. Shevels entertained the ladies' sewing circle at her home on Monday evening. The gathering broke up at about midnight.

CORBIN HAPPENINGS

George Chiaravano, who was injured last week, is progressing favorably.

Bellevue girls and boys journeyed to Blairstown on Tuesday evening and played two fast and clean basketball games with the Columbus Club.

Local and General Items

Constable Amy succeeds Const. Simpson at the Coleman barracks of the R.C.M.P.

Fred Green, scientist, is trying to discover ways and means of boiling eggs in cold water.

Alphonse Fabre and Claire White, of Kimberley, were each successful in bagging five-point black-tail deer recently.

Desire Gosse, of the Blairstown Iron Works, had the misfortune of losing two fingers in some machine gears on Friday afternoon last.

Rumor has it that ten thousand dollars is offered to any English speaking individual who will dare to go into Russia and talk revolution.

The Pythian Sisters, of Hillcrest, are holding a sale of home cooking and tea, in the hall at Hillcrest on Saturday afternoon, December 3rd, from 2 to 6 o'clock.

W. H. DeLong, well known Lethbridge commercial traveller, who last week suffered injuries in an auto accident at Spring Coulee, died of the injuries on Thursday, aged 46.

After small stuff: An exchange reports that a quantity of ladies' stockings and lingerie was stolen from the store of R. A. Smith at Moyle. Hope there's nothing in it!

The Safeway Store at Lethbridge was robbed of \$350 in cash on Saturday night, when the safe, a cardboard box, or something of the nature, 1-digged on a shelf, was entered.

The November 15th issue of the Alberta Gazette contains notice that The Invisible Empire Knights and Ladies of the Ku Klux Klan, Realm of Alberta, has been incorporated under the Societies Act, 1924.

A dividend of \$1.50 per share has been declared by the Crows' Nest Pass Coal Company, Limited, payable December the 1st to shareholders of November 10th record. This increases the annual rate of dividends to \$6.00 per annum.

A sensation was sprung in London, England, when L. S. Omery proposed that Britain meet her next three payments of war debts to the United States, and then place a prohibitory tariff against goods coming from the States.

Mrs. W. T. Young last week repeated a "feat" which was also performed by her in February last, of walking from her home on the South Fork to Hillcrest, a distance of about fourteen miles over practically trailless country most of the way. Mrs. Young was in Blairstown the early part of this week, looking none the worse for her undertaking.

For the holdup and robbery of a Chinaman at Nanton, George Langavan, aged 17, of Innisfail, was sentenced to be whipped in Lethbridge jail and admitted to suspended sentence for two years. He pleaded guilty before Judge MacDonald to charges of carrying a concealed weapon, armed robbery and theft of seven dollars.

Miss Nellie E. M. McNichol, B.A., Winnipeg, was admitted to the bar at the last sitting on banc of the King's bench court of Manitoba. Miss McNichol, former postmaster of Macleod, and received her public and high school education here. Since moving to Winnipeg, Miss McNichol has taken her arts course and law course.

Macleod Gazette.

One extraordinary result of the recent tariff adjustment on rubber shoes in favor of Canada has been revealed at Port of Spain, Trinidad, B.W.I. A merchant of that town had a shipment of non-Canadian, non-British rubber shoes lying in customs there.

Formerly the duty on the shipment would have been \$16.85, now the duty would be \$22.10. But the merchant has elected to pay the shippers only and to lose the merchandise, rather than pay the duty. Large quantities of Canadian-made footwear are enroute to the West Indies from Montreal and Halifax.

WORLD HAPPENINGS BRIEFLY TOLD

Political considerations will be cast aside in the selection of men for the tariff board, Premier R. B. Bennett promised the House of Commons.

Friend of Louis Riel and the man who brought the rebel's body to Winnipeg for burial after his execution in Regina, in 1885, Arthur Stuwe, is dead in his 73rd year.

A total of 187 Japanese and Chinese were permitted to Canada from June 1, 1931, to November 1, 1932, according to a return tabled in the House of Commons.

Abbot Lawrence Lowell, 76, one of the world noted educationists and for the past 23 years president of Harvard University, has resigned. No reason was given.

Light revenue for British Columbia under the government liquor board for this year is off 40 per cent, according to a preliminary report compiled by government auditors for the information of the cabinet.

First shipment of its kind, some 12,000 tons of Russian fuel oil arrived at Montreal recently. Since September three shiploads of crude oil from Soviet Russia reached the Montreal port.

A group of Harvard undergraduates have begun organization of a permanent "Harvard League of Nations," in which students from all countries represented in the university would have membership.

Nine sleek Alaskan sled dogs headed out of Copper Centre, Alaska, on November 26, en route with their driver, Clyde Williams, veteran of 31 years of prospecting, trapping and mushing in the northland, on an overland trip to Chicago.

Canada gave whole-hearted support to any and every constructive proposal for the limitation and reduction of armaments which was laid before the Geneva disarmament conference. Sir George Perley, who headed the Canadian delegation, informed the House of Commons.

Men in New Business

Contend There Is Room For Them As Manicurists

Entering a field hitherto belonging exclusively to women, six Edmonton young men have finished training as manicurists. And they're deadly serious about it.

The head of a prominent school of beauty culture in the east gave them their training. Economic conditions forced them into this experiment, but they don't intend to compete with women manicurists. There's room in the field for both, they say.

Had No Representative

Women Cannot Be Blamed If Imperial Conference Made Mistakes

If the recent Imperial Economic Conference at Ottawa made mistakes the women of the empire cannot be blamed. So contends Canada's only woman senator, Hon. Catarine Wilson.

Addressing the annual banquet of the Ontario Liberal Association, Senator Wilson called attention to the fact that not one nation taking part in the conference had a woman representative or a woman adviser.

W. M. II. 1930

Complete Moth Collection

Manitoba Men Proud Possessors Of Every Known Specimen

Manitoba has discovered herself the home of two of the greatest butterfly and moth collections in the world. They are owned by J. Hannibal, Winnipeg, and Jack May, of Riding National Park.

Comprising insects of varying size and design the two collections are representative of the entire world's entomological phenomena.

The "Siles" as it is called, is the Cattagranina from Columbia, South America, with two perfect numerals on its back, reading 89. Another has a death's head on its back, and still another a pair of owl's eyes. The specimens vary from the Great Hercules moth with a wing spread of eleven inches to others that are so tiny they can be hardly seen with the naked eye.

Wheat For Subscriptions

Yorkton Enterprise Boosts Circulation

In Farming Districts

'Eight carloads of wheat, more than 8,000 bushels, at a pegged price of 50 cents per bushel, were taken in by the "Yorkton Enterprise" during a novel circulation campaign. The wheat is represented by storage tickets on practically every elevator with a radius of fifty miles of Yorkton. Farmer subscribers throughout the territory took advantage of the opportunity afforded of renewing their subscriptions with 50-cent wheat and close to one thousand new subscriptions were received.

A DARING NEW MODEL IDENTIFIED BY ITS RAGLAN SHOULDERS WITH PUFFED SLEEVES

The raglan shoulders in this charming evening dress have much to do with creating sleeve interest. Contrast is provided by the black, rough crepe collar. Buttons give decorative touch. They are made of the black crepe with the red crepe used for the lining.

It's as simple as eating apple pie to make it.

It's a dress that you can wear for dinner or afternoon parties.

Style No. 938 is designed for sizes 14, 16, 18, 20 years, 36 and 38 inches bust.

Size 16 requires 3 1/4 yards 36-inch width, 1 1/4 yard 39-inch contrasting.

Crinkly crepe satin, wool crepe, velvet and wool and crepe silk novelties are also appropriate.

Price, 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

"Don't come into the store for a minute. I'm selling some reducing mixture."—The Passing Show, London.

Recipes For This Week

(By Betty Barclay)

NUT BROWN PUFF

1 cup crumbled graham crackers
1/4 cup sugar.
3/4 cup rolled milk.
4 egg yolks, beaten.
1/2 cup meat melted.
1/4 teaspoon almond flavoring.
1/4 teaspoon vanilla.
4 egg whites.

Mix crumbled crackers, sugar, salt and cover with scalded milk. Stir into beaten egg yolks. Add nut meats and flavoring and fold in stiffly beaten egg whites. Pour into buttered baking dish. Bake in a moderate oven (350 degrees Fahrenheit) 35-40 minutes. Six portions.

ORANGE CANDIED SWEET POTATOES

(Serves 6)

1 cup orange juice.
1/2 teaspoon grated orange rind.
1 cup water.
1/2 cup sugar.
3 tablespoons light corn syrup.
1/2 teaspoon salt.
1/4 cup butter.
6 to 8 sweet potatoes or yams.

Combine first 7 ingredients and pour over peeled uncooked sweet potatoes arranged in casserole or baking dish. Bake covered in a moderate oven (375 degrees to 400 degrees Fahrenheit) until tender, 30 to 40 minutes. Baste occasionally. Remove lid last 10 minutes to brown or put under blazer.

Variation: Just before removing from oven, add a layer of marshmallows and brown.

Russia estimates that its present population is 127,000,000.

England has twice as many women as men over 86 years old.

Biography Of Louis Riel

Chas. Sauve Brings To Light Some Interesting Facts Concerning Rebel Leader

Louis Riel's grandfather's name was Rielson and Riel himself came from Limerick, instead of Quebec, is stated among the interesting records in a biography of "Riel, the Martyr," written by Charles Sauve, who died in Winnipeg recently.

Mr. Sauve was forty years in finishing the book, completing it a few days before his death.

He began to make notes at the time of Riel's death. Sauve was one of those chosen to go west to Regina when Riel was executed, and guard the box-car that brought the casket to Winnipeg during the black days of November, 1885.

Mrs. S. Smith, daughter of Sauve, in telling of the manuscript, said it disclosed Riel's body was not in the coffin buried in St. Boniface, but was buried secretly elsewhere.

In the book other famous characters of the west of those days are described, including Jean Baptiste Lagimodiere, who went on a snow-shoeing trip with Red River Metis.

On June 1, 1885, Sauve's exploit as of a young man was to duplicate this feat of his ancestor, walking to Montreal and back, carrying nothing but his gun. He was gone a year.

After fourteen years of flying, Douglas H. Davis, air mail pilot, of Griffin, Georgia, has completed 1,000,000 miles in the air.

A first edition of short stories by Kipling was bought for four cents in an Isleworth, England, second-hand store recently.

"False alarms are the curse of the fireman's life," says a retired captain. Nobody likes to be told to go to blazes for nothing.

SUNDAY SCHOOL LESSON

DECEMBER 4

LIVING WITH PEOPLE OF OTHER RACES

Golden Text: "Of a truth I perceive that God is no respecter of persons."

—Acts 10:34.

Lesson: 1 Kings 8:41-43; Luke 10: 26-37; John 4:5-10; Acts 10:9-19, 28-35; 17:22-28.

Devotional Reading: Luke 10:30-37.

Explanation and Comments

Jesus Was No Respecter Of Persons, John 4:5-10. We have in this incident the example of Jesus in dealing with a representative of another race. This was our text for the Fourth Lesson of the First Quarter, and Explanations and Comments there may be recalled.

"The world menaces of interracial friction and antagonism. Institutes of higher learning call to their students to be Christian believers that all men are the children of God."—Basil Matthews. The Lesson Peter Learned About Our Nations, Acts 10:9-35.

On January 1, 1933, in Joppa, Peter had a vision of a receptacle resembling a great sheet let down from heaven by its four corners, and containing all manner of unclean and creeping things. Birds that he had heard a voice bidding him kill and eat. Horrified at the thought, Peter exclaimed, "Not so, Lord, for I have never eaten such meat as this, either clean or unclean." The Law of Moses had prescribed what animals could be eaten and how they should be slaughtered, and all else was held to be unclean.

But God had cleaned meat made not clean by the Law. The words of the voice uttered to the astonished Peter, What God had made and given was good in His sight. Apart from the symbolic meaning of the vision, it was a lesson for Peter that the Jews ought to recognize the fact that the distinction of meat held by the Jews in the past must now be given up, in order that Jews and Gentiles might eat together, associating on terms of equality.

Peter was pondering the meaning of the vision when passengers arrived from Corinth. A Roman centurion and his wife, a devout man who was generous to the poor, had come to Joppa to visit his wife's relatives. They entered and lodged them over night. The next day he accompanied them on their return to Corinth. Peter took the pride of taking with him the centurion and his wife, for he was all present in the sight of the Lord.

On November 1, 1885, Sauve's exploit as of a young man was to duplicate this feat of his ancestor, walking to Montreal and back, carrying nothing but his gun. He was gone a year.

After fourteen years of flying, Douglas H. Davis, air mail pilot, of Griffin, Georgia, has completed 1,000,000 miles in the air.

A first edition of short stories by Kipling was bought for four cents in an Isleworth, England, second-hand store recently.

"False alarms are the curse of the fireman's life," says a retired captain. Nobody likes to be told to go to blazes for nothing.

These travelling clinics go into all parts of the province, into good communities, and poor, into every town, village and hamlet.

They follow the course of disease, examine those who have been in contact with open tuberculosis, or are suspected, and keep examining them. No charge is made for any such examination. There is now a van to carry all equipment and staff, and a portable generator, so that a current for X-ray films can be provided anywhere.

More than fifteen thousand examinations have been made by these Manitoba Travelling Clinics since they began, supported by seal sales. Besides known tuberculosis people who have been seen, the new discoveries of tuberculosis totalled more than 200 in 1932, and altogether, more than one thousand.

When you bought seals last year this was the big work you helped with. When you buy NOW you help to do even more in 1933.

Should you buy seals? This year many should not or cannot. Do not be pressed to buy unless you should. We would like to think that none had bought who should not. It is quite easy to return the seals to the sanatorium at Ninette, Manitoba. If you have bought in other years and cannot this year please take a few seals without cost before returning.

But do your bit by buying if you can and what you can. The worse the year the more the need.

Different Dog Taxes

In England they pay 7s. 6d. for a license for any sort of dog, but in Germany dogs are taxed according to their weight. A dachshund costs £2 a year. In France dogs are taxed according to their value. You can keep a mongrel for as little as a shilling, but a thoroughbred may cost thirty shillings.

Steamers Missed Rock Through Good Luck

Found Near Surface In Channel Off Vancouver Coast

Lady Luck has been smiling on the bridge of every steamer that has navigated Reilly's Cove, Clayquot Sound, West Coast of Vancouver Island, because in the dead centre of the channel there is a pinnacle of rock that had less than fifteen feet of water over it at low water.

This pinnacle was located by the Dominion hydrographic steamer "Lillooet" in the course of her charting work and a lot of mariners are shaking hands with them at getting over that dangerous spot without trouble.

How ships missed piling up on this rock is explained by the hydrographers that none happened to be in the neighborhood at low water. "Just a matter of luck," said one of the hydrographers.

A Pocket Sheep Shearer

Small Machine Can Run From Light Battery Of Car

A small machine for shearing sheep weighing only five pounds, has been invented for use with the lighting battery of a motor car.

Many modern shepherds in Britain go to and fro by car, and with such a shearer—attached by a flexible wire to the dashboard—they can remove pounds of fleece in five minutes.

Plenty Is A Name

"Plenty," said Detective Thomas Hennigan and a New York Central railroad engineer, who was forced to stop his train, climb from the cab and help move an automobile from the railroad tracks where it apparently was abandoned. The automobile was parked on the tracks by a man named Leavitt.

A forestry course for army recruits has been instituted in Norway.

—what's in a name?

"Plenty," said Detective Thomas Hennigan and a New York Central railroad engineer, who was forced to stop his train, climb from the cab and help move an automobile from the railroad tracks where it apparently was abandoned. The automobile was parked on the tracks by a man named Leavitt.

A forestry course for army recruits has been instituted in Norway.

—what's in a name?

"Plenty," said Detective Thomas Hennigan and a New York Central railroad engineer, who was forced to stop his train, climb from the cab and help move an automobile from the railroad tracks where it apparently was abandoned. The automobile was parked on the tracks by a man named Leavitt.
